Job Summary

Job Category: Post-doctoral Positions and Fellowships
Institution Classification/Type: Large Academic
Institution/Company: University of Maryland
City: College Park
State/Province: MD
Country: United States of America

Announcement

Job Announcement Text:

The University of Maryland invites applications for a postdoctoral scientist position with the Laboratory for Millimeter-Wave Astronomy (LMA) in association with CARMA (Combined Array for Research in Millimeter-wave Astronomy). CARMA is a radio array of 23 antennas operating in the 1.3, 3, and 10 mm atmospheric windows with sub-arcsecond resolution in its highest resolution array. The LMA provides a collaborative group environment supporting a broad range of science including extragalactic, galactic, and solar system astronomy. The successful candidate will work with the array and/or complement science with the array through independent and collaborative research in their science areas of interest. Applications from observers or theorists are encouraged.

The successful applicant will be located at the University of Maryland College Park, and be part of a large and active Astronomy Department. The appointment is for two years, with renewal for a third year likely. The successful applicant must have completed the requirements for the Ph.D. degree prior to arrival. Inquiries may be directed to Lee Mundy (lmasearch@astro.umd.edu). Applicants should send a curriculum vitae, list of publications, and statement of research interests. Three letters of recommendation should be requested by the applicant and sent directly to the above address or emailed to lmasearch@astro.umd.edu. Applications and letters must arrive by January 19, 2010 to receive full consideration. Minorities and women are particularly encouraged to apply. AAE/EOE

Included Benefits:
